Summary

Motivated and detail-oriented AI Generalist and Full-Stack Developer with hands-on experience in Machine Learning, Deep Learning, Data Science, and Generative AI applications. Skilled in Python, React.js, Node.js, SQL, and cloud-based development. Experienced in building AI-powered applications, REST APIs, automation workflows, and data-driven solutions using modern frameworks and tools. Passionate about solving real-world problems through AI, data analysis, and scalable software development with strong analytical, problem-solving, and teamwork abilities.

Experience

WebAsha Technologies Pvt. Ltd. - Data Science & AI Trainer 10/2025 - Current
Pune, India

- Analyzed data trends to inform strategic decision-making processes.
- Created visual reports utilizing data visualization tools for clarity.
- Collaborated with cross-functional teams to gather project insights.
- Developed comprehensive training materials on data analysis concepts and techniques.
- Conducted workshops to improve participants' data analysis skills and knowledge.
- Facilitated hands-on sessions using industry-standard data analysis tools.
- Supported learners in grasping best practices in data visualization tools.

IT Desk - IT Trainer 06/2025 - 09/2025
Pune, India

- Assisted in designing a comprehensive curriculum for IT professionals.
- Supported other trainers in developing courses for specific client requirements.
- Advised IT managers on strategies for improving employee performance through effective training.
- Developed training materials and resources to support IT staff in their learning process.
- Provided guidance to staff members on how best to utilize newly acquired skills within their job roles.

Skills

- Python Programming
- Machine Learning
- Deep Learning
- Generative AI & Prompt Engineering
- Data Science
- Data Analysis
- Data Visualization
- Statistical Analysis
- Exploratory Data Analysis (EDA)
- Predictive Modeling
- Natural Language Processing (NLP)
- Computer Vision
- TensorFlow & PyTorch
- Scikit-learn
- Pandas & NumPy
- Matplotlib & Seaborn
- SQL & Database Management
- PostgreSQL & MongoDB
- REST API Development
- ASP.NET Core Web API
- React.js & Node.js
- Git & GitHub
- Docker & Cloud Computing
- AI Automation Workflows
- LangChain & Hugging Face
- Problem Solving & Analytical Thinking

Education and Training

BANWARILAL BHALOTIA COLLEGE
ASANSOL
BACHELOR COMPUTER APPLICATION: Computer Applications Development

- Identified areas where additional training was necessary or desirable.
- Developed training materials for diverse IT topics and software applications.

PVR INSHIELD BITUMINUS PVT. LTD. - Python 03/2024 - 05/2025
Trainer
Asansol, India

- Developed Python training materials for diverse learner groups.
- Conducted interactive workshops to enhance coding skills and comprehension.
- Provided personalized support to trainees during hands-on coding sessions.
- Collaborated with teams to identify training needs and curriculum improvements.
- Facilitated discussions on best practices in Python programming techniques.

Projects

Robot Simulator API
Technologies: C#, ASP.NET Core, PostgreSQL, ADO.NET, DDD, Minimal API

- Designed and implemented a modular Robot Simulator API using Domain-Driven Design and Minimal APIs.
- Developed separate components for robot commands, map management, and user authentication.
- Integrated PostgreSQL using manual ADO.NET access; applied Repository Pattern and Dependency Injection for maintainability.
- Implemented custom basic authentication and claims-based authorization with password hashing.

AI Miner Hub
Technologies: ASP.NET Core Web API, PostgreSQL

- Developed a backend API for a mining dashboard application with user authentication and mining statistics.
- Followed clean architecture using Controllers, Models, Services, and Repositories.
- Designed scalable endpoints and database structure for performance monitoring.

Car Rental Mobile App
Technologies: React Native, Node.js, Express, MongoDB

- Built a cross-platform mobile application for car rental services.
- Implemented user and admin roles, secure authentication, car listing, booking management, and conflict resolution.
- Added booking cancellation, error handling, and comprehensive API documentation.

AMITY UNIVERSITY
KOLKATA
MASTERS OF COMPUTER
APPLICATION: Computer Applications Development
